

Pilot Program

Blend the best of GRC + QMS

Ostendio invites you to join our exclusive Pilot Program to test our Quality Management & GRC platform made for Software as a Medical Device (SaMD) companies, like yours.

This initiative offers a cost-effective way to streamline compliance and quality processes across security and quality management standards while shaping the future of our platform.

Our platform combines robust functionality with ease of use, backed by experience serving medical device clients. Join us to validate and refine a solution built for your industry's future.

Why Join the Pilot?

You can't beat the price

Access Ostendio's QMS + GRC platform for \$749/month—a 50% discount off standard rates.

Influence a great platform

Become an advisory board member to guide feature enhancements and SaMD-specific capabilities.

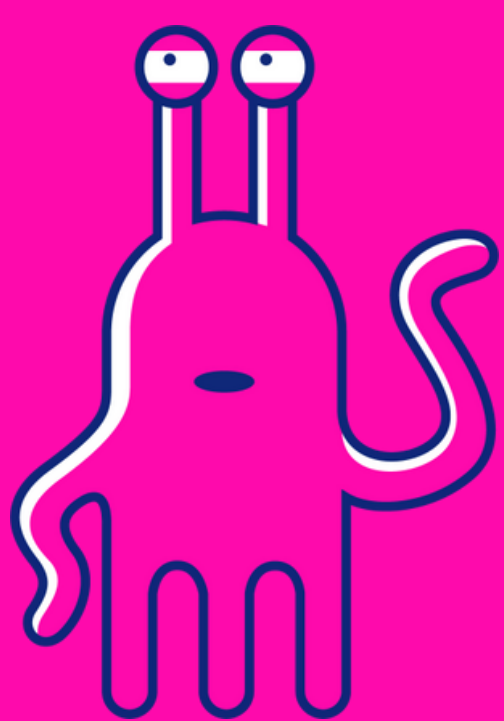

Comply with cybersecurity + quality management standards

Meet FDA, ISO 13485, and cybersecurity requirements, like SOC 2 and HIPAA with a modern, user-friendly platform.

Gain a competitive edge

Gain early access to a cutting-edge solution designed for medical device innovators.

How it Works

Introduction (Weeks 1–3)

We'll discuss your QMS and GRC needs and schedule an introduction chat.

Onboarding (Month 2)

Receive personalized setup, training, and configuration support.

Engagement (Months 2–5)

Use the platform, provide feedback, and join advisory board discussions.

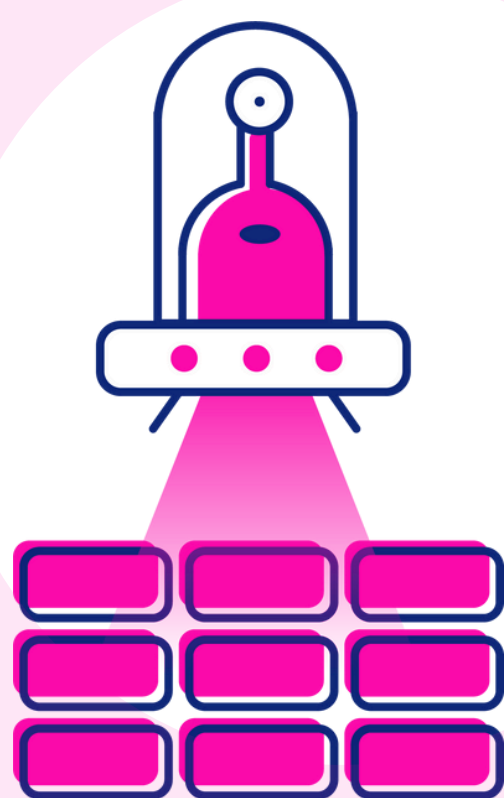

Evaluation (Months 6+)

Review outcomes and explore renewal options at a discounted rate.

Key Features + Functionality

- Document Control
- Training & Competency Tracking
- CAPA (Corrective & Preventive Action)
- Audit Management
- Risk Management
- Incident / Change Ticketing
- Vendor / Supplier Management

Schedule a 30-minute virtual demo to explore the platform at sales@ostendio.com
